REORGANIZED

Dear Mr. Moree:

This is to inform you that Ecology and Environment, Inc., (EEI) is a duly authorized contractor for the U.S. Environmental Protection Agency. Representatives from EEI may, upon presentation of a Letter of Introduction, may enter any facility where hazardous materials are generated, stored, treated, disposed of, or transported to determine compliance with standards, regulations and permits issued pursuant to the Resource Conservation and Recovery Act (RCRA) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).

Your facility was identified in a 1980 EPA publication, entitled Dioxins, as having the potential for the presence of dioxin as a result of production processes. This inspection is to determine if an "imminent and substantial endangerment to health or the environment" exists as described by Section 7003 of RCRA or Section 106 of CERCLA. Authority to conduct this inspection is contained in Section 3007 of RCRA and Section 104 of CERCLA.

An inspection may include a review of records, taking pictures and collecting samples. Representatives of EEI are authorized to collect information which is considered confidential. Any such information must be specified as confidential at the time of the inspection so that appropriate protective measures may be taken.

The inspection will be conducted in two phases. The first being a reconnaissance inspection to identify sampling areas, obtain information on production and waste disposal, etc. The second phase is the sampling. Mr. K. Malone, EEI, Field Inspection Team Leader, or a member of his staff, may contact you to arrange the dates of the inspections.

 Office of Environmental Affairs
 P. O. Box 44396
 Baton Rouge, Louisiana 70804

Dear Mr. Porter:

A 1980 EPA report titled Dioxins (EPA-600/2-80-197) lists industrial sites where dioxins might be found. This document identified the following sites in Louisiana:

Monsanto - Luling
 ✓ Exxon - Baton Rouge.

I have enclosed a brief summary of the status of each site, based on EPA records, and the EPA strategy for further investigation. Bonnie DeVos of my staff discussed this information with Bill Deville on Friday, June 17, 1983. Should you have any questions regarding the sites or strategy, please call me at (214) 767-9709.

Sincerely yours,

/s/ William B. Hathaway

R. W. UPCHURCH, JR.
MANAGER

June 5, 1981

Mr. Chuck Barnes
Environmental Protection Agency, Region VI
Sites Notification
1201 Elm Street
Dallas, Texas 75270

Dear Mr. Barnes:

The attached notifications of hazardous waste sites are being provided to your agency in response to a requirement of the Comprehensive Environmental Response Compensation and Liability Act of 1980. The sites identified are the Exxon Company, U.S.A. Baton Rouge Refinery, Anchorage Tank Farm, and Maryland Tank Farm.

The Baton Rouge Refinery was identified and inspected as a part of a survey conducted by the U. S. House Committee on Interstate and Foreign Commerce in 1979. As a result of this investigation, the Office of Public Awareness, EPA Region VI, announced on February 20, 1981 the Exxon Company, U.S.A. Baton Rouge Refinery was removed from the EPA potentially hazardous waste disposal sites list.

Very truly yours,

Notification of Hazardous Waste Site

Side Two

F Waste Quantity

Place an X in the appropriate boxes to indicate the facility types found at the site.

In the "total facility waste amount" space give the estimated combined quantity (volume) of hazardous wastes at the site using cubic feet or gallons.

In the "total facility area" space, give the estimated area size which the facilities occupy using square feet or acres.

Facility Type

1. ☐ Piles
2. ☐ Land Treatment
3. ☒ Landfill
4. ☐ Tanks
5. ☒ Impoundment
6. ☐ Underground Injection
7. ☐ Drums, Above Ground
8. ☐ Drums, Below Ground
9. ☐ Other (Specify) _____

Total Facility Waste Amount

cubic feet 8,310,000

gallons _____

Total Facility Area

square feet 699,000

acres _____

G Known, Suspected or Likely Releases to the Environment:

Place an X in the appropriate boxes to indicate any known, suspected, or likely releases of wastes to the environment.

☐ Known ☐ Suspected ☐ Likely ☒ None

Note: Items H and I are optional. Completing these items will assist EPA and State and local governments in locating and assessing hazardous waste sites. Although completing the items is not required, you are encouraged to do so.

H Sketch Map of Site Location: (Optional)

Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.

Attached

The optional information requested in Parts H and I is contained in the RCRA permit application for this facility which was submitted to the EPA in November 1980.

I Description of Site: (Optional)

Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells, springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions.

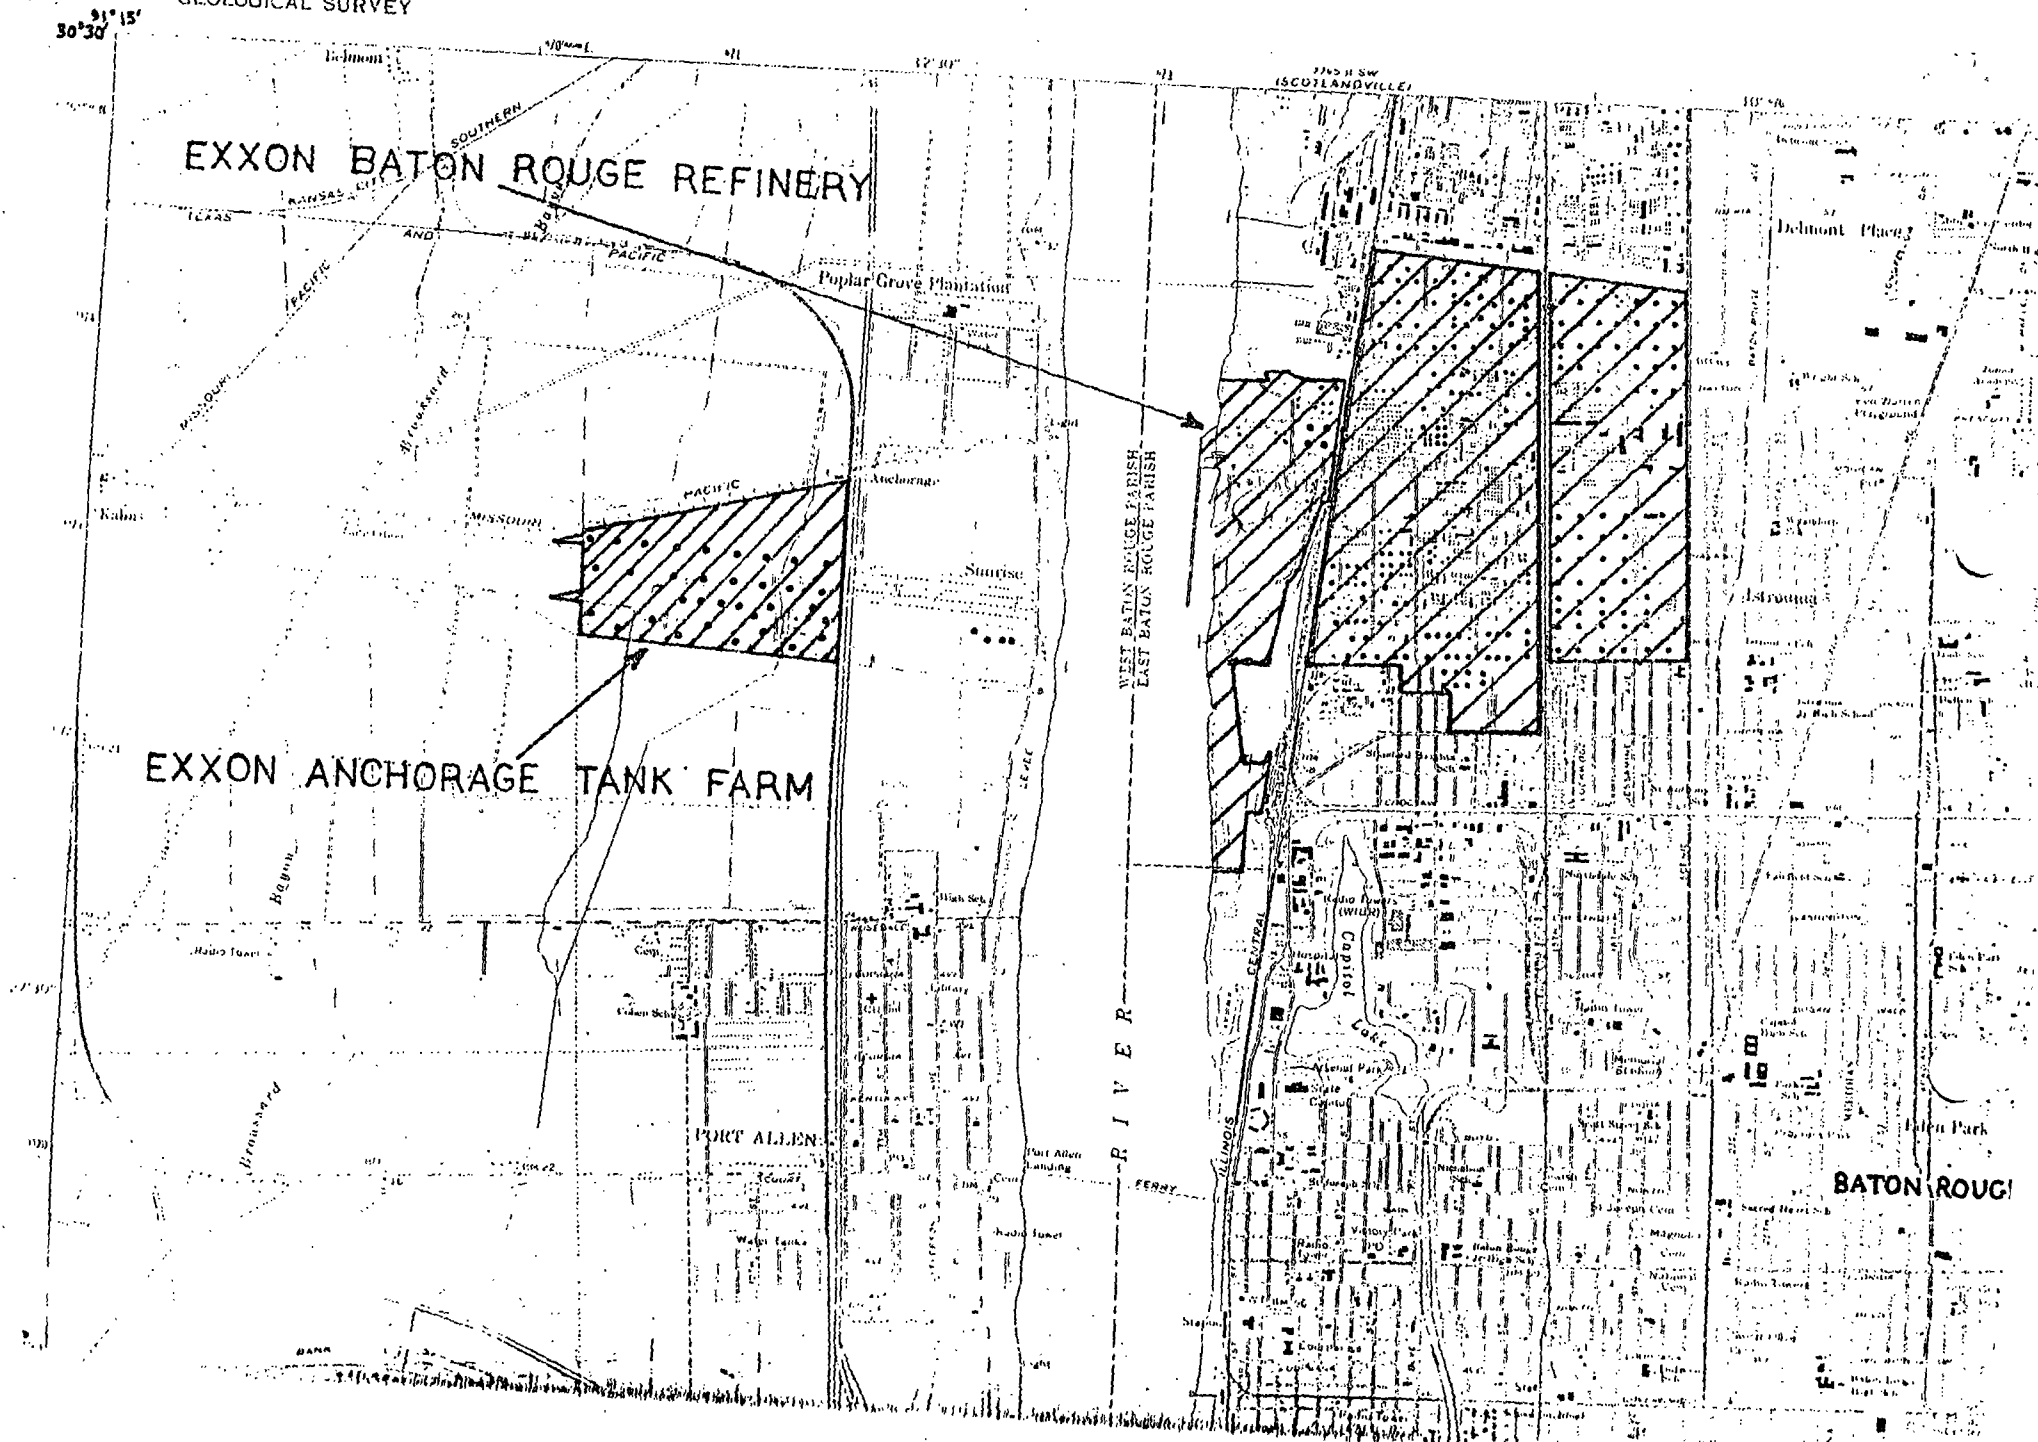

The Exxon Baton Rouge sites participated in the U.S. House Committee on Interstate and Foreign Commerce 1979 survey. Following the survey, Messrs. B. J. Pritchard and Richard Gigger of the Surveillance and Analysis Division of EPA visited the site twice in conjunction with this survey. On February 20, 1981, the Office of Public Awareness, EPA VI, announced that the Exxon Company, U.S.A. Baton Rouge Refinery was removed from the EPA potentially hazardous waste disposal sites list.

J Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".

Dear Mr. Fontenot:

We are currently analyzing all of our past waste disposal practices. One location used by us was the Exxon Company refinery site, located adjacent to us. This site was inspected by Mr. Burton J. Pritchard of EPA on January 23 and February 14, earlier this year. We participated in the inspection and felt that it went very well.

To make a more complete analysis of our past disposal practices, we would like to include a copy of the site inspection report that Mr. Pritchard sent to you. We have talked to Mr. Charles Gadza, and he stated that we should address our request to you. Therefore, assuming it is proper to do so, I would like to request a copy of Mr. Pritchard's Site Inspection Report.

If there are any questions pertaining to this request, please call me at (504) 359-4313. Thank you for your cooperation.

Very truly yours,

Marvin E. Borgmeyer
